

MOOD LIGHTING

TRANSFORM YOUR VENUE
WITH BEAUTIFUL AMBIENT MOOD LIGHTING

Our Mood Uplighting package is a simple but effective way to completely change the atmosphere of your wedding reception.

A selection of 10 wireless uplights can be positioned around your venue to wash walls, pillars and key features in colour, helping to create a warm, elegant and more immersive setting

The lighting can be tailored to complement your wedding colour scheme, venue, or overall theme. From soft romantic tones through to richer, more vibrant colours as the evening develops

Perfect for adding extra depth to photographs, highlighting architectural features and creating that finished look when the main venue lighting is lowered for the evening celebrations

Seasonal Mood Lighting

It's also perfect for seasonal weddings.

From warm amber, orange and rustic tones for an autumn wedding to red, green, blue and turquoise for a Christmas or winter celebration

LET'S ADD THIS EXTRA TO YOUR WEDDING PACKAGE!
