

YOUR SPECIAL FIRST DANCE

Your first dance is one of the most memorable moments of your wedding day. I take great care in helping create an atmosphere that feels personal, relaxed and unforgettable

Whether you are looking for a romantic white spotlight, elegant starlit effect or love heart projection, every detail is designed to enhance the moment and create beautiful memories for both you and your guests

PERSONALISED FIRST DANCE VERSION

For couples wanting something even more unique, I can also create a personalised first dance edit tailored specifically to you. This could be a seamless mix between two special songs, a shortened version of your chosen track, or a slow romantic first dance building into a more upbeat party anthem to fill the dance floor and start the evening celebrations in style

Every first dance is carefully prepared in advance, giving you complete peace of mind and allowing you to simply enjoy the moment together
